TURKISH MINISTER, REBUKED BY WILSON TO QUIT WASHINGTON

Administration Inquires Whether Von Schoen, Attache of German Embassy, Said Japan Is Hostile to United States - He Denies Interview.

BY ASSOCIATED PRESS.

WASHINGTON. Sept. 24 .- A. Rustem Bey, the Turkish Ambassador, today informed President Wilson that he has not altered the views he recently expressed in a published interview and that he wil leave the United States within a fortnight.

The Ambassador refused to discuss his action further than to say he asked his Government for leave of absence, which he was certain would be granted, and would depart for Constantinopie within ten days.

The announcement of his withdrawal, though not unexpected, caused a profound sensation in diplomatic circles.

Coming close on another diplomatic interview yesterday, of which the administration at once took cognizance—that credited to Baron von Schoen of the German Embassy, dwelling on the possibility of war between the United States and Japan-it was interpreted as an indication of President Wilson's determination to silence comment by foreign diplomatists considered dangerous to the neutrality of this country.

Although Count von Bernstorff and Baron Schoen have repudiated the Baron's interview, the State Department, at the direction of the President, was today still looking into it. The Turkish Ambassador's interview, however, was considered particularly objectionable by the administration, and Becretary Bryan, at the President's direction, asked the Ambassador to refrain from such expressions.

HE war office has issued a list containing the names of 25 officers killed in action or who have died in hospitals from wounds. The list includes Lieutenant-Colonel D. Warren of the Surrey Regiment, and Lieut, Sir G. G. S. Baillie of the Royal Scot Greys. Maj. A. H. Maitland of the Cameron Highlanders, who was reported last week as wounded, is given in the list as having succumbed to his wounds. He was the third son of the Earl of Lauderdale.

An additional list shows 41 officers wounded and five officers missing. Two of them are members of the Intelligence Corps. Three officers have been made prisoners of war, including one member of the Royal Flying Corps.

Gen. Steinmetz Killed by Fragment of Shrapnell.

BERLIN, Sept. 24 (via The Hague and London).-The German general staff, referring to the death of Lieutenant-General Steinmetz, says he was killed by a fragment of shrapnel which severed his jugular vein. Gen. Steinmetz directed the fire of the 42.5-centimeter pieces during the sieges of Liege, Namur and Maubeuge. Later he

was placed in command of a division of infantry. Continuing, the staff says that Rev. Martin Hobbom, captain of a reserve division, was killed by a shell after carrying many wounded men out of the range of fire of the French heavy artillery.

The well-known German painter, Arthur Schlubeck, now serving as a lieutenant of Hussars, was wounded by a piece of shrapnel while fighting on the River Aisne. He has been given the Iron Cross. Herr Schlubeck has painted several portraits of the Crown Prince of Germany. His wife is an American woman, formerly a Mrs. Heyl of Milwaukee.

Aisne Battle Takes Character of Manchurian Conflicts—Entrenchments Guarded by Barbed Wire Entanglements and Hidden Machine Guns Make Advances Slow.

BY ASSOCIATED PRESS.

PARIS, Sept. 24, 2:55 P. M .- The allies have advanced conciderably along their western wing, occupying the town of Peronne, despite desperate resistance, according to the official announcement of the French War Department this afternoon.

At the eastern end of the battle line in France there has been heavy fighting on the River Meuse, the allies alternately advancing and retiring.

The text of the official announcement follows:

"First-On our left wing, between the River Somme and the River Oise, our troops have advanced in the direction of Roye. A detachment occupied Peronne and held this position in spite of a spirited attack on the part of the enemy.

Between the river Oise and the river Aisne, the enemy continues to maintain important bodies of troops, well entrenched. We have made a slight advance to the northwest of Berry-au-Bac.

"2. On the center, between Rheims and the Argonne district the situation shows no change. To the east of Argonne and on the heights of the Meuse, the enemy has continued his attacks, delivering them with especial violence. The fighting continues, accompanied by alternate retirements at certain points and advances at others.

"It might be added that exceptional power of the artillery facing each other-the heavy German artillery against the French 7.5-centimeter (3-inch) cannons—gives a particular value to the temporary fortifications which the two adversaires have drawn up.

"The task is, therefore, to take whole rows of entrenchments, each one protected by very close defenses, particularly rows of barbed wire, with mitrailleuses in concealed positions.

"In these circumstances progress of necessity must be slow. It often happens that the progress of the attacks only amounts to from 500 meters (550 yards) to one kilometer (.6 of a mile) a day."

"Actual Battle of the Aisne Has

Not Begun," Correspondent Says

LONDON, Sept. 24 .- Interest in the fighting today, says the Bordeaux correspondent of the Times, centers in Woevre, where the enemy is making a serious effort to pierce the line of forts linking Verdun and Toul.

"To the northeast of Verdun," the correspondent continues, "east of the Meuse heights and in the direction of Mouilly and Dampierre, their furious attempts have failed. In the south of Woevre they hold line positions running through Richeceurt, Seicheprey and Gironville. The general situation remains unchanged.

"On the left and center the Allies have the best of reasons for confidence in the result of the battle. Let there be no mistake; the enemy is going to give serious trouble along the line, where, with striking recuperative power, they managed to gather their routed hordes, fleeing from the battle of the Marne.

"A week has elapsed since it first became clear that, although forced to abandon successive positions prepared for defense, the enemy had found to the north of the Aisne, north-northwest of Rheims, formidably prepared fortified positions, upon which they might hope to maintain themselves for many days while their own troops were recovering from the retreat, and while the fire of victory among the allies was burning out.

"The positions, enormously strong by nature and dominating the valleys and the towns, have been turned into regular fortresses. The line of trenches, built with science and the solidity of permanent works, are sovered by flanking trenches bristling with mitrailleuses and reinforced by masses of barbed wire and blockhouses, whose quick firers and mitrailleases sweep the whole front. To the rear of these works, the heavy aritllery is placed in position, and from its fire such places as Soissons and Rheims have suffered great damage.

"Most of the work on this line was finished while the battle of the Marne was still in progress. The allies did their best to prevent its completion, and there has been some desperate fighting along the Aisne. Gallant rushes have been made toward the trenches, and fierce hand-to-hand struggles have taken place upon the top of the Craonne plateau, the side of which rises like a cliff against the allies.

Attack and counter attack succeeded one another while the endangered Crown Prince's army has been picking a way out of a difficult country into a still more awkward position. On our right, the enemy's army been seeking for an opening or a weak link in the chain of forts be

'The allies, for their part, have been progressing slowly upon the Argonne. Still the actual battle of the Aisne has not yet begun. There has already been enough fighting to constitute half a dozen battles, but only the preliminary stages of the big struggle have been reached. The railways on both sides are massing troops along the front, the Germans coming from Lorraine, the British from the whole empire, and the French from the south and west.

"Meanwhile, the siege operations continue. The deceptive lull which preceded the battle of Liao-Yang has fallen upon the field. The situation remains unchanged, in spite of the furious cannonading and the desperate fighting, but with each fresh engagement the situation becomes more clear, the plan of the staff more definite and the day of its realization more imminent."

French Soldiers Admire Lively Air, It's a long way to Tipperary, Thinking It English National Hymn.

Dispatches from the front tell of the great popularity the Irish song, "It's a Long Way to Tipperary," with the British soldiers and their French allies. Already, by much repetition, the lively air of "Tipperary" has come to be considered the English national air, by many Frenchmen who never heard the sonorous strains of "God In the same way, the song "There'll Re a Hot Time in the Old Town Tonight" became known in Cuba and the Philippines, in 1898, as the American anthem. A half century earlier, in the Mexican war, the song "Green Grow the Rushes, O," caused the Mexicans to name the Americans "gringoes," a nickname which still persists, though the song has long been forgotten. That "Tipperary" is equally popular in the Britis navy, is shown in an incident told by Albert Dougherty chief gunner of the Cressy, who was one of the rescued in the naval disaster of a few days ago. Dougherty according to an Associated Press dispatch, said that, while swimming about, he heard a seaman calling, It's the verses is: a Long Way to Tipperary," and that he cried back, "Yes, if you're going to swim."

Hauptmann Calls Bergson "Shallow," and Maeterlinck "Deluded Gallomaniac."

'WAR IS FOR DEFENSE'

'Who Whistled for the Mongolian to Bite at Europe's Heel?" He Asks.

NEW YORK, Sept. 22.-The Press Bureau of the Chamber of German American Commerce made public vesterday Untruth." written by 'Against Gerhardt Hauptmann, famous

tramatist. The article follows: By GERHARDT HAUPTMANN.

E are an eminently peaceful na-tion. The shallow Parisian feuilletoniso, Bergson, may call The great poet and deluded Galloma niac, Maeterlinck, may impose a similar nice titles upon us after having called us "the conscience of Europe." The world knows that we are an old

I say it frankly: We have and we had no hatred against France; we have idolized the plastic art, sculpture, pic-torial art and the literature of that

It is to be greatly regretted that Ger many and France could not be political friends. They should have been since they are the administrators of the continental productions of the mind, and, since they are the two great, thor ough, cultured master nations. Fate lowever, decreed otherwise.

Not Barbarians at Home. I do not believe that an American English, French or Italian traveler ever believed himself among "barbarians" while visiting German families German cities, German hotels, German hops, German concerts, German theaters, Bayreuth, German libraries on Ferman museums. We have traveled in other countries, and we have always

velcomed the stranger. Of course, our geographical situation, with menacing powers in the West, compelled us to provide for the safety of our homes. Fer this reason-and for this reason only-our army and navy were organized. Toward this organization the current of German industry, efficiency and inventive power was directed to a great extent. At the present moment, we know, better than ve ever knew before, how necessary this measure was.

But Kaiser Wilhelm, supreme "Kriegsherr" (War Lord) of the empire, did love peace from the very bottom of his soul and did maintain peace, and our well-trained army was organized for no other purpose than defense. We wanted to be prepared against threatening assaults. I repeat: The German nation, the German Prince, Kaiser Wilhelm, all of them had no other thought in maintaining the army and navy than to safeguard the bee hive of the empire, the industrious, rich, active activity of

Kniser Hoped for Pence. expressing my deepest conviction, I say hat it has always been a favorite idea of the Kaiser-an idea to which he clung with heartfelt enthusiasm-to continue to the end the blessed epoch of administration as one of absolute peace. It is not his, not our fault, that matters

have turned out otherwise. The war in which we are engaged, and which was forced upon us, is a war of lefense. Whoever wishes to dispute this fact would have to do so against his better knowledge. Look at the enemy on the eastern, on the northern, on the western frontier. Our blood fraternity with Austria means nothing less than self-preservation for both countries. That the sword was forced into our hand can plainly be seen from the dispatches exchanged between the Emperor and the Czar, between the Emperor and the King of England, by everybody who desires a true understanding, not a delusion. Of course, now that we have taken up the sword, we are not going to lay it down until we have proven our holy right before God and men.

Who was it that conspired to bring about this war? Who even whistled for the Mongolian, for the Japs, come and bite at Europe's heel, victously and cowardly? Who but our enemies, who surrounded by hordes of Cossacks, vet claim to fight for Euro-Has an English Degree.

Why, heaven only knows.

But this much is certain: the sanguious world concert now raging on the European continent has an English diplomat as impresarie and conductor.

The question is, whether the finale of

NORTH OF PARIS (via London), Sept. 24.

ANY of the soldiers taking part in the battle of the Aisne are suffering from a curious form of aphasia. The ailment is puzzling the army physicians, who are studying it in all its phases. So far as the physicians are able to judge, the condition results from the deafening sounds caused by a continual bursting of powerful shells. Usually the soldier is rendered speechless and deaf. Some appear only dazed, but are

Good Advice for Thin Folks

Good Advice for Thin Polks

The trouble with most this folis who wish to gain weight is that they insist on drugging their stomach or sturing it with greamy foods; rubbing on useless "flesh creama." or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

Thanks to a remarkable new scientified discovery, it is now seastfle to combine into simple form the very elements needed by the digestive organs to help them convert food into rich, fat-inden blood. This master-strike of modern chemistry is called Sargol and has been termed the greatest of flesh-builders. Gen. Gonzales Appeals to Villa, Citing Danger of Intervention-Villa Is Rushing Troops Southward-

American Forces to Leave Mexico Despite

the New Revolution WASHINGTON, Sept. 24. was officially stated at the White House today that the latest troubles between Gen. Carranza and Gen. Villa would not alter the plans of the United States as to withdrawing troops from Vera Cruz or the status of the embargo on arms. No date had been fixed

for moving the troops.

President Wilson is understood to take the position that Carranza and Villa must settle their differences without interference from the United States and that the presence of American troops at Vera Cruz would not solve the difficulty. The fleet will be kept at Vera Cruz until after the withdrawal of the troops.

By Associated Press.
MEXICO CITY, Sept. 24.—Efforts are being made here to patch the break between Carranza and Villa, it was an-

nounced today. Gen. Carranza has informed the United States Government he will not attack Gen. Villa, but will order his forces to be on the defensive and resist attack. The first chief's communication de-clared the national convention would be held as scheduled, on Oct. 1, when a provisional government would be established which he hoped would be sat-

isfactory to the United States. Gen. Pablo Gonzales, chief of the Army of the East, has telegraphed Villa an appeal which gives eight reasons why Villa should reconsider his action and remain friendly to Carranza. Chief of these is the danger seen by

onzales of outside intervention if there should be a break now, when the 'Ideals of the revolution" are almost accom-

Vandervoort's Has Never Been Better Prepared to Supply Your Every Autumn Need Than Now And This Is Especially True With Reference to Our Various Lines Which Are Marked at Popular Prices

You Will Find a Coat to Please You

in Our Splendid Autumn Stock

With the coming of cooler weather comes also an increased demand for the new Fall and Winter Coats. We have them in all of the most fashionable styles for the new season, made from broadcloths, zibelines, serges, wool poplin, pile fabrics and caracul cloth. They are made in the Cossack, semitailored and Redingote styles, some of which have fur collars, while others have self-collars with inlaid velvet or braid trimming. Prices

\$16.50 to \$77.50 Coats at \$16.50 to \$25.00

For street, traveling and afternoon wear, we have a wide diversity of attractive models, which are priced most inexpensively. These are made from new coatings, including zibelines, wool poplins, checks, fancy mixtures and chinchilla, in white, black, navy, brown and mixtures. They are made on flaring lines and in semi-tailored style and are exceptional values at \$16.50 to \$25.00

Coats at \$32.50 to \$77.50

For automobile and afternoon wear, we are showing many handsome Coats and Cape-Coats, including a large number of moderately-priced models, in addition to the more expensive kinds. These have set in or kimono sleeves and some are trimmed with broadtail cloth, plain and fancy velvets or braid. The materials most in evidence are broadcloth, velvets, broadtail cloth, zibeline wool poplins, fancy mixtures, etc. Prices

Villa to Move on the Capital, Says First Revolt Proclamation

NOGALES, Sonora, Sept. 24. PROCLAMATION of revolu against Gen. Carranza, first chief of the Constitutionalist army, was published here yesterday. It is signed by Jose de J.

"Gen. Villa has refused to recog nize the traitor Carranza," the proclamation read, "and has or-dered the mobilization of his veteran troops to move on the capital." After paying tribute to Villa, the proclamation added that his efforts and Gov. Manuel Castilla Brito of

he same as he agreed to at the Toretween Carranza and Villa were adjusted. There it was declared that for every thousand soldiers one delegate hould be sent to the convention. No Governors of states or lesser military chiefs were to attend. Carransa, nevertheless, has invited not only the Governors, but practically all the Generals. Villa, according to official reports, saw his opportunity to dominate the convention, vanished and broke with Caranza forthwith.

IS MOVING SOUTH

EL PASO, Tex., Sept. 24.-Gen. Villa, now in open revolt against Carranza, first chief of the Constitutionalists, today rushed his forces south from Juarez and Chihuahua City to meet what was reported to be a strong force of Carranza soldiers moving north from Aguas Calientes and Zacatecas. Gen. Villa has abandoned his expe-

dition to assist the Mayretona revolt in Sonora. According to official estimates, Villa controls nearly 40,000 troops. Maytorena has mobilized about 5000 troops, mostly

Yaqui Indians, in Sonora. Carranza's force comprises the unified force of Gen. Pablo Gonzales, his Eastern divisional commander, probably numbering about 30,000 men, and those of the West Coast troops under Obregon that participated in the entry of the national capital.

Gen. Villa's Statement. Gen. Villa's statement, in which he asserted that besides Chihuahua and Sonora, Zacatecas and a part of Coahuila, Carranza's native state, had joined in the uprising, was received here as follows:

In view of the attitude of Ven-ustiano Carranza, which has been the cause of great injuries to our country, and since he could never govern a republic nor make happy a country which aspires to a real democracy, a country which wants to have a government emanating from the people subject to an in-terpretation of the national feeling, we have been obliged to renounce him as commander in chief of the Constitutionalist army in charge of the executive power; and we have declared hostilities, being disposed to fight until the last, un-til he is forced to abandon his power and place the same in the hands of the real representatives of the people, who are disposed to remedy all evils of the republic and to direct it through the proper roau of

progress and well being.
We are not in favor of personalism, but we are defenders of principles, and consequently we will not fight against any other of the chiefs have contributed to the down fall of the usurper Huert, our difficulties being against the person of Venustiano Carranza. Incidents Before the Break. Gen. Obregon, who commands the Division of the Northeast of the Constiutionalist army, went to Chihuahua to co-operate with Villa in settling local troubles in Sonora. They appeared to be working in harmony, Obregon signing Villa's demands for reforms at the ional convention.

A few days ago, however, the Constitutionalist forces under Gen. Benjamin Gil and the troops under Gov. Maytona, friendly to Villa, clashed, and a ridge was blown up near Nogales. This furiated Villa, who immediately ordered 5000 troops to invade Sonora and estore order. Gen. Obregon took issue with Villa as to the best method of settling the quarrel and a heated argument ensued. Later the two men went

o a dance together and the quarrel seemed to be over.

In the meantime published reports were current that Villa actually had arrested Obregon. It was this which reached Carranza. An American consular agent, who interviewed Gen. Obregon the day after the quarrel, which occurred on Sept. 12, did not find Obre-

gon ill-disposed toward Villa.

Just what developed subsequently, however, is not yet known to officials, although advices to the State Department from its agent pointed out how determined Villa was to control the conention or put his reforms into effect force. FARMER TELLS OF VISIT AT NIGHT

Says Realty Dealer Called at 10 P. M. to Sell Him Two Mortgages of \$2400 That He Has Found Are Worth-

Beverly C. Stevens of 5280 Washington oulevard, the Clayton real estate deal er, who is charged with embezzlement sed his carpenter as a "straw man" n several real estate transactions which will be investigated when the grand jury meets at Clayton, Oct. 12. This was dis-closed today when Henry Mehler, 68 ears old, a Sappington farmer, applied or a warrant charging Stevens with derauding him of \$2400 on Aug. 14.

Stevens' "straw man" was James Bailey of Pine Lawn, St. Louis County, hose name was used in two notes which Stevens gave to two clients last month. The first transaction disclosed was the one with Mrs. Bertha Hanpeter, 70 years old, of Kirkwood, and esulted in Stevens' arrest last Friday. The other was with Mehler.

Bailey Admits Signing Notes.

A. H. Kiskaddon, attorney for Bailey, today told a Post-Dispatch reporter that Balley had signed many notes and papers for Stevens "as an accommoda-, without knowledge what the papers were for." Bailey has no idea of the amounts of notes to which his signature has been attached, but he is satisfied hey will exceed \$5000, which is the value f the property Bailey owns. Bailey as conceded his property will be taken rom him by innocent purchasers of otes, and Kiskaddon said no effort ould be made to save it. An effort will e made to save a home which Bailey gave his aged mother, Mrs. Christiana Freiss, with whom he lives at Pine

Kiskaddon said Balley signed the papers when his employer, Stevens, slapped him upon the back and sail, "Sign this for me, Bailey, will you? no liability, but you will be doing me

Stevens began using Bailey as straw man" after Bailey began doing general carpenter work on various uses controlled by Stevens in St. Louis County. He was much seen about Stevens' office in Clayton and many residents believed he was connected with Stevens' office. Kiskaddon said Bailey never became suspicious of Stevens' liberal use of him as a "straw man" until Stevens filed his assignment about two weeks ago.

Stevens Visited Farmer at Night. Mehler said he bought four deeds of rust, totaling \$3600, from Stevens about ive years ago. He was about to retire bed at 10 p. m. on Aug. 14, last, when stevens drove up to his house in an utomobile. He said Stevens declared the parties, who gave two deeds for a total of \$2400, wanted to take them up. Stevens said he had \$2400 in other securs to give Mehler in their place.

Mehler had the utmost confidence in Stevens and when Stevens took \$44 from his pocket and handed it to Mehler in payment of interest on the other two deeds of trust totaling \$1200, the aged farmer surrendered \$2400 deeds of trust. Carpenter's Name on One Note. Stevens took the two deeds of trust, Miller said, and gave him in return two notes, one for \$1700 signed by Richard and Ada Darnell and another for \$700 signed by James Bailey, the "straw

Mehler declared Stevens asserted the deeds of trust covering the Darnell and Bailey notes were being recorded, and he would mail them to Mehler as soon as they were recorded.

Mehler never received them and when Stevens was arrested, the aged farmer hurried to Clayton to investigate his titles. He could not find any deeds of trust in the Recorder's office covering the Darnell and Bailey notes, and so far he has not learned the whereabouts of the Danells. He is investigating the titles to the deeds of trust for \$1200, which he still owns.

New Fall Suits

Worth \$22.50, \$25.00 and \$27.50-specially priced for Friday and Saturday at

OUR New York office has consummated a most remarkable purchase of several hundred charming Fall Suits. We were fortunate in being allotted 175 of them as our share. We may well feel proud of the fact that there is nothing in the city that can equal this attractive lot as to styles and value

THE styles offer an excellent selection of the man tailored effects-coats vary from 40" to 50" in length, with flare bottoms. Many of the skirts are plain, and many in the new tunic modes. Materials consist of French broadcloth, poplin, gaberdine, men's-wear serge, and fine cheviots. Workmanship on these garments is above criticism. Colors are black, tobacco brown, Hunter's green, navy and midnight blue-all sizes.

Pile Fabric Coats

We have just received a new lot of these popular Coats in sealette plush, lambette, Siberta, Kurltex, Arabian Bay and silvern. Full and three-quarter lengths. Some trimmed with fur collars—linings guaranteed—all sizes.

Conferees Agree on Individual Punishment for Officers of Offending Companies.

WASHINGTON, Sept. 24.—The Clayton anti-trust bill, second of the adminis-tration trust legislative measures, is ready for final consideration of Congress after many months of delibera-

Conferees agreed upon their final report yesterday, completing a measure that is a combination of features of

both Senate and House bills.

Primarily the bill would, as urgently suggested by President Wilson, punish individual officers of corporations violating the trust laws of the country. Any director, officer or agent of a cor-poration violating the anti-trust laws, or who might aid or counsel such vio-lation, will be deemed guilty of a mis-demeanor, punishable by a fine not exexceeding one year, or both.

Interlocking Directorates Barred. Important changes made in the measure as it left the Senate relate to interlocking directorates and exclusive con tracts. The conferees restored the House section prohibiting interlocking directo-rates of bank directors with an amendment to provide: That from and after two years fol-

lowing the passage of the act no person shall at the same time be a director or other officer or employe of more than one bank, banking association or trust company which has depos-its, capital, surplus and undivided profits aggregating more than \$1,000,000, the procities having a population of more than The House bill fixed the capital lim-

tation at \$2,500,000 and contained no population limitation. Interlocking also would be prohibited of directors in competitive corporations having a capital of more than \$1,000,000 if elimination of the competition would.

constitute a violation of the trust laws. Railroad directors would be prohibited from serving as directors of corporations dealing with securities or supplies in excess of \$50,000 a year, except through competitive bidding under regulation the Interstate Commerce Commission.

Tying Contracts Prohibited. The provision to prohibit exclusive o "tying" contracts follows the spirit of the Walsh amendment to maintain in dependence of retail dealers. It would make it unlawful to lease or make a sale or contract for sale of goods, patented. r unpatented, on the condition, agreement or understanding that the lessee or purchaser shall not use or deal in the goods of a competitor of the lessors or seller, where the effect of such a transaction may substantially lessen competition or tend to creat monopoly. Speific penalty in this section of the Senate

bill was eliminated. Price discrimination between purchasers would be prohibited by the bill and holding companies would be prohibited when acquirement of corporations by nother would create monopoly or 'substantially lessen' competition.

Labor, agricultural and fraternal organizations are exempted from the provisions of the law and labor is declared not to be a commodity.

A provision growing out of the New Haven Railroad difficulties would make it a felony for any officer or director a corporation to wilfully misapply its funds or to wilfully permit them to be misapplied. This is made punishable by a fine of not less than \$500 or by imprisonment for not less than one ear, or more than 10 years, o Provisions modifying and liberalizing the injunction laws were retained prac tically as agreed upon in the Senate and trial by jury is provided in case:

of indirect contempt.

Several Senate amendments were eliminated. One of these would have given the courts authority to appoint receivers for convicted corporations to sell the property to persons who would

restore competition.
Senator Culberson submitted the conference report to the Senate late yester day, giving notice that he would call it up at the earliest opportunity.

New York Central Has Not Killed Passenger in a Wreck Since 1911. In a statement just issued by the New York Central Railroad it is shown that since Feb. 1, 1911, not a passenger has been killed on the company's lines in any train accident, despite the fact that within that period 1,266,654 passenger and \$19,513 freight trains have been operated on the system in all kinds of weather The passenger trains carried 136, 154,983 persons, a number exceeding the population of the United States.

The statement of the New York Central is spread broadcast to show the care with which the company perates its trains and the security that it tries to give the traveling public. Other railroads can probably show equal security to passengers by a similar comparison of facts and figures, all of which would surprise liose who are timid about making ong railroad journeys. Newspapers in the East and elsewhere have made considerable comment on the above showing of the New York Central with a view of reassuring the general public and establishing confi-dence as to the careful management of railroads throughout the country ome newspapers maintain that s large proportion of fatalities on rail-roads is due to carelessness on the part of the passengers in disobeying

he company rules, etc. To Open War on Ticks.

MARIANNA, Ark., Sept. 24.—Lee
County has joined in the State-wide mpaign for the eradication of ticks. eetings were held throughout the nty and addresses outlining the move nd its objects were delivered by Dr. A. E. Six Election Board Clerks Nearly Finished With Inquiry in Precincts of Three Wards.

Six Election Board clerks who yesterday began canvassing the registration in three precincts in which frauds have been reported had progressed so far with their work this morning that it was expected they would finish by night and make their report to the Election

Commissioners.

If evidence of fraud is found by the clerks the Election Commissioners will ask Circuit Attorney Harvey to present the facts to the grand jury, with a view of obtaining indictments against those who fraudulently registered and those who induced them to register.

The investigation now under way is imited to the Third Precinct of the Fifth Ward, at 817 North Seventh street; the Fourth Precinct of the Sixteenth Ward, at 3949 Scott avenue, and the Eleventh Precinct of the Nineteenth Ward, at

2816 Easton avenue.

John Schmoll, chairman of the Republican City Committee, in a letter to Election Commissioner Drabelle, declared investigation which he caused to be made led him to conclude there had been fraudulent registration in 18 precincts of the Fifth Ward and in the first five precincts of the Sixth Ward. The frauds, he said, were particularly noticeable in the first, third and ninth precincts of the Fifth Ward and in the third and fifth precincts of the Sixth Ward. The other Fifth Ward precincts under his suspicion are the second, fourth, seventh, eighth, eleventh, thirteenth, fourteenth, fifteenth, sixteenth and seventeenth.

Schmoll requested the Election Board to canvass the 18 precincts indicated by him and promises to place his informa-tion about frauds at the disposal of the

One New Logging House.
The second and third floors of the three-story building at 726 Morgan street, from which the Republican City Committee contends 53 men illegally registered, was only opened for business as a lodging house a few days before registration day. This was verified yester-day by Adam Boeck & Co. of 618 Chestnut street, agents for the property.

George Boeck said that a few days prior to registration day a man walked in, said he was W. J. Healy, and wanted to rent the property. He paid \$35 cash in advance for a month's rent.

Residents in the neighborhood, mainly small shop keepers and dealers in secondhand goods, were not inclined to talk of the occupancy of the house, as they seemed to fear some vengeance would be visited upon them. A resident told a reporter that several days before regis tration day the upper floors of the building, which had been vacant quite a while, were opened, and men began to carry dozens of cots upstairs. Then after nightfall, roughly dressed men began to climb the stairs, and then amuse themselves by whistling and singing.

A Post-Dispatch reporter went into the econd floor of the structure, where a number of rooms connect with each other. Dust was over everything. But each room was filled with shiny, new cots, with wire springs glistening, many of them without even a blanket as bed

In the front room on the second floor vere eight single cots, and one double bed, packed so closely together that the lodgers had little room in which to undress. In the room immediately behind this were five single cots, and three double beds. A man was sleeping on a con

Reporters Not Welcome. Across the hallway was what years before evidently had been an office. Three roughly dressed men, arms tattooed, sat upon a rickety old table, and spat tobacco juice over the floor. There were no chairs. In the room immediately behind this a young man was cutting an old man's hair with a pair of ancient shears. No chairs being in the

room, both men were standing.
"What do you want here?" one of the men on the table in the front room bellowed at the reporter.

When told he was looking for "the

boss" the speaker roared back:
"You get out of here. I'm the boss, see and you'd better beat it. This is our joint here. We don't want none of you around here."

When told of the allegations of fraud,

the speaker roared again:
"We don't care what they say about us here. You wait till the grand jury gets onter this, and we'll show 'em a few tricks. We ain't no Democratswe're anarchists in this joint." When the reporter started to talk

HAS FIVE NEPHEWS IN WAR

Sheriff Dickmann Has Not Heard From Relatives in Germany. Sheriff Dickmann has seven nephews in the German army, five of them in active service and he has not heard of them since the war started. One of his nephews, William Pithers, is the Assistant German Consul in Amsterdam, Holland, while another, Henry Bernard, is connected with the Krupp factory in

Essen, Germany.

Dickmann received a letter from his sister, Mrs. Teresa Pithers of Cologne-on-the-Rhine, last January, in which she stated proudly that her five sons were eligible for service in the army. Dickmann's brother, Bernard Dickmann, who lives in the same town, has two sons. Dickmann visited his brother and sister seven years ago and has received letters from them regularly.

'The Will of the People." Publicity - "pitiless publicity" - was arged by Judge Lamm as one of the remedies for the law's delays, which he said had existed for many hundreds of years. He said that he saw in the agitation against the law's delays the inspiring spectacle of a free and alert people taking an interest in their own people taking an interest in their own affairs. He told the lawyers that they should be glad that a mighty protest has gone up against the law's delays, and that the public mind is bent on searching out a remedy, and that one is being hammered out on the anvil of

An Evil Does Exist.

He declared that it would be a great pity if all the fine seal for reforms spent itself in agitation. All agreed, he said, that an evil existed. The Judges on the bench knew it, he said, and they knew that delay in justice often meant

denial of justice.

Judge Lamm asserted that the great bulk of delays arises in the trial courts, and not in the Appellate Courts. It was a popular notion, he said, that the de-lays resulted from deficient laws, but this was not true. He would not say that the laws could not be improved so as to bring about speedler trials. If the present laws were interpreted liberally and enforced with vigor, there would be reasonably speedy trials now in Mis-

"Give me right-minded attorneys," said Judge Lamm, "whether they be veterans or recruits disciplined by study; give me trial Judges learned in the laws and rich in 'saving com sense,' fearless men who will hew to the line of the present code of procedure and eschew indolence, give me litigants who on one or both sides want a trial I say, give me these elements—and who is bold enough to say that he cannot now get a trial in Missouri within

Judge Lamm discussed trial judges, attorneys and litigants at some length and suggested that Judges nominated free from party primaries and elected separately from political elections might improve the quality of Judges. Much of the cause of the delay rested upon the lawyers themselves, he declared. The crying need was for more diligence on the part of lawyers, for lawyers who would not resort to lies to gain

"Why should the courts not report the number of days actually employed

in hearing cases, and if dockets are gested, the cause of it?" Judge nm asked. "And why should not the Governor or Attorney-General report the facts to the people. Do not the people out of their own pockets maintain courts by taxation, and can it be said that the character and degree of public vice rendered in courts are not bust ness of theirs?"

Supreme Court Behind. Judge Lamm said that there was very little delay in the Supreme Court in iminal cases, in original proceedings and certain other cases which the Constitution or statutes required be given precedence. Poison Inhaled Causes Many Persons to Fall Unconscious After Leaving the Scene.

By Associated Press.

JERSEY CITY, N. J., Sept. 24.—Ten gallons of nitric acid, spilled from a carboy to the floor of the Erie Railroad station at the commuters' rush hour today, gave off fumes which choked scores of persons to unconscious-ness, made hundreds ill, stopped traf-fic in the Hudson tunnels for an hour and packed the stations with thousands who verged on panic till a strong force of police quieted them.

Not one of the throng sweeping

through the station was touched by the acid, as it bubbled and boiled over the tone flooring, giving off fumes. Two or three persons collapsed im mediately but in most of the cases o nconsciousness the poison acted as

This Player-Piano is of Aeolian construction throughout and is provided with features whi h are exclusive to instruments of Aeolian manufacture. There is no other Player-Piano on the market which anywhere equals it. The Pianola alone excells it. Other instruments, of far inferior character in musical possi-bilities, are sold in ordinary piano stores for \$600 or more!

When you buy this instrument from the Aeolian Company you are dealing direct with the makers themselves, with all the attending savings and a guarantee of satisfaction which cannot be procured if your purchase is made through ordinary trade channels involving a number of middlemen.

This Aeolian-built Player-Piano is equipped with expression devices of vital importance, including a Soloist device whereby you may bring out the melody clearly above the background of accom-

The Artist's Sustaining device enables you to reproduce automatically the intricate pedaling effects of the great artists. The Correct Tracking device insures the passage of the music over the Tracker bar in the exact position for playing. And many other exclusive features are embodied—each one vital to the artistic production of music, and not to be found in any instrument of other than Aeolian manufacture.

As a piano for hand playing it leaves nothing to be desired for the tone is rich, sweet and sonorous, and the action exceedingly

WHY MODERN WO KEN'S HAIR IS GETTING THIN

By Mdm. Beaupre
Wigs, switches, curling tongs, artificial waving, singeing, etc., have combined to ruin the hair of many Corrected. women, so there is decidedly an in-crease in baldness. But proper care will develop heavy, beautiful hair upon any head. In washing the hair do not use a makeshift which may remove more than the excess oil, leaving the hair dangerously dry, but use something which is made for shampoeing only. A perfectly safe, economical, invigorating shampoo, that makes the hair so fluffy it seems much heavier than it is, can be had by dissolving a teaspoonful canthrox, which every good druggist sells, in a cup hot water. This mixture cleanses gently, yet thoroughly, removing all dandruff, excess oil and dirt, giving to the scalp and hair the vigor that Canthrox shampoos make the head feel good, make the hair look good, are very beneficial where hair is faded, dull or brittle, and the regular use of canthrox will greatly enrich sale by dealers. insures scalp-health and hair-beauty. the color of the hair and give a beau-tiful gloss and softness.—ADV.

LETTERS FROM THE PEOPLE

Socialists Voted Money for Armaments.

To the Editor of the Post-Dispatch.
Your editorial, "Socialist Policy or War," is more than a riddle to me. You maintain that notwith-standing the fact that 9,000,000 Socialist voters have been working heart and soul for the abolition as soon as the Legislature meets. war, "the Socialist parliamentarians in the various countries involved have, in the past, made mistake of fostering militarism under the mistaken idea that vast military establishments would hasten the day when Socialism will tri-

I challenge the author of this editorial to prove the truthfulness of his charges. The Socialist readers of the Post-Dispatch, as well as multitudes of nial elephantiasis," which is diagnosed as "a others who believe in your honest, independent "Truth above all," would certainly appreciate if you would come out with facts showing that Socialist representatives in the European parliaments have been fostering militarism at any ime, under any circumstances.

I also challenge him to quote, not the opponents of Socialism, but their leaders, their spiritual fa-thers and grandfathers, like Bebel and Liebknecht, who spent years in prison for their anti-militaristic propaganda; Jaures, who was murdered for his "love" of militarism; Adler, Pieclauoff, Vander-velde, Kautsky, J. R. Macdonald, or any other European or American Socialist of high standing.

Show your fairness, if you are independent and unafraid to say the truth. Bring at least one instance when the Socialists of Germany and France or any other country, have supported the policy

or any other country, have of augmentation or armaments.

MARX DISCIPLE. authority named in the editorial Yves Guyot, is a well-known French journalist and publicist, who, in a recent New York Times, gave facts and figures showing that Socialist legislators had taken this attitude. The New Interna-tional Year Book for 1913, article "Socialism," says, os the various bills to increase armaments by the high tide of national patriotism that en gulfed Europe. Of course they talked a good deal about the disadvantage of militarism from the and protests; in France they even co-operated fare for the distance traveled. with Syndicalists and anarchists in inciting French soldiers to mutiny. But the undoubted unpopular-ity of their anti-militaristic propaganda made their leaders fearful of attempting the much her-alded general strike as a cure for militarism. No general strike occurred, and when the military is came before the various Parliaments the Sosialist Deputies, while openly disclaiming them and unanimously voting against them as a rule ties. In the Sixteenth and Nineteenth wards WHICH MADE THEM POSSIBLE, contenting themselves with the assurance that the NEW TAXES WOULD FALL MOST HEAVILY UPON CAPITAL Thus, the 111 Socialist Deputies in the Reichstag fought the new German army bill, but did not obstruct it, and then, with unanimity, VOTED THE RESOURCES DEMANDED BY THE GOVERNMENT FOR ITS ENFORCEMENT. This that ambiguous attitude of Socialist Deputies ovoked considerable factional differences within party, not only in Germany but also in France Italy, Austria-Hungary and Russia."

Contrast this action with that of the opponent of Charles I in the English Parliament, in 1625 and subsequently. They refused over and over again to pass the budget, because the King's ree was against the people's interest, and cor wels. Our critic must admit that, to denounce and vote against a law and then vote for the y to put it in force is inconsistent in a legis-

eral of our readers severely criticise the Post-Dispatch because we have insisted upon the cutting out of "pork barrel" appropriations as an imperative measure of economy in hard times. They infer erroneously that the Post-Dispatch favors abandoning river and harbor improvements and other necessary or desirable public works.

There is not the slightest ground for the infernecessary public improvements should be provided carries a lesson. for, but the actual figures prove that the proposed cutting down of the appropriation will not affect work already undertaken, nor prevent the undertaking of all other needed work.

In response to Senate questions concerning the amount required to continue all present river and arbor work and to maintain plants and operations, the Secretary of War estimated the sum at \$12,000,000. The Treasury contains an unexpended balance of \$45,338,653, of which there is a sur- The relief movement should not be made an plus of \$22,638,411 over all contracts. ENVELOPING GEN. BILL PHELPS.

Gen. K. F. Gill, contractor for the new State house at Jefferson City, is reported to be executing a great turning movement on Gen. (formerly Col.) Bill Phelps' war machine. At last accounts the Phelps right wing had been almost completely enveloped and his center was not holding any too well. The sacred limestone of Carthage, Mo., will be used by Mr. Gill, but it will come from quarry not in the combine.

Let us hope that the tedious and costly war of confine the choice of a State house stone to one particular locality has had suspicious phases well worth the attention of an investigating committee

SOME NEW AMERICANISMS.

"Sneeze, Steve; your brain is dusty," is one of the newer evolutements of American argot that has swum into our ken. Also among the 1915 models that enrich the vernacular we note "crasevere strain of the hatband."

New fall styles of speech will include also 'blatant," for which we are indebted to Mr. Richard Harding Davis. "Blatant" was formerly a regular word, defined in Noah Webster's wellknown book of words as "loud or noisy." Mr. Davis in his war correspondence makes it mean virtually anything you choose.

Sport slang has literally taken over the entire vocabulary of war. Tuesday the Cards submarined the Phillies and in Wednesday's first game they Zeppelined the Giants. Politics is likewise borrowing from the European unpleasantness. The Progressives are making "tactical retreats." The State of Virginia has had her line of supplies cut by the Prohibitionists.

It's an ill wind that blows language no good.

FAIR PLAY FOR THE TAXI MEN.

Now that the city is preparing to regulate taxicab charges, we trust it will give taxi owners and drivers the protection to which they are entitled. The new rules should require each taxi to carry a taximeter and a card showing the legal rates, to protect taxi drivers from being browbeaten standpoint of labor; they kept up demonstrations by ugly patrons into accepting less than the legal

This much, at least, we shall insist upon.

UNPAD THE REGISTRATION LISTS.

Both the Election Board and Circuit Attorney charges made relative to registration irregularities. In the Sixteenth and Nineteenth wards gle addresses are charged for Republican benefit and in the Fifth ward of hoboes and other transients for Democratic benefit. It is said that 58 putative voters went onto the books as residing at one dwelling on Morgan street.

The inquiry to ascertain the facts should b thorough. The importance of the registration system in safeguarding the honesty of the ballot calls for punishment proportionate to the seriousness of the offense, if deliberate and concerted attempts to override the law are established. Padded voters' lists must be unpadded.

A PROHIBITION OLD DOMINION.

With populous towns recorded in the affirmative and a total majority of astonishing dimensions Virginia, mother state of port-consuming presi dents who also were not averse at times to punch of good quality, votes for state-wide prohibition. Old Virginia is thus shown to be of one mind on the subject with West Virginia, which two years ago reached the same decision by 92,342, a trenendous majority for so small a state.

State-wide prohibition continues, accordingly, to be one of the most remarkable of the movements of the South. Belief that it had come to its turning point with the rejection of the issue in and West Virginia, we now have Oklahoma, Mississippi, Georgia, Tennessee and North Carolina in the "dry" column. In November of this year new legislation goes into effect which will reduce the number of saloons in the District of Columbia

at least by one-half. A large Southern area of course is also unde local option laws, which are the favorite form of prohibitory legislation in other sections of the Union, though Maine, North Dakota and Kansas have state-wide laws. In 1913, the "dry" territory included two-thirds of the total area and 46,029, 750 of the population of the United States. Virginia's action and the steady spread of local option undoubtedly increase the figures to more than 70 per cent of total area and more than 50,000,000 of the population. And since the passage of the Federal Webb act prohibition means more than it used to. We have an intensive prohibition as

well as an expanded prohibition. In 45 years, the population of the country has increased 100 per cent, but the persons living in "dry" territory have increased more than 1400 per cent. The fact that this increase is due in large part to liquor interests' defiance of reguence. Not only have we repeatedly said that all latory laws and attempts at political domination

DON'T SHAME ST. LOUIS!

The decision of the St. Louis "Buy-a-Bale" Committee to use the relief fund in its hands buying cotton "at market prices," instead of at 10 cents a pound, is fraught with menace to this city's reputation. The plan should be abandoned instantly. Any contributors unwilling to pay 10 cents a pound should have their money returned agency to gain profits for speculators. It cannot

be, without shaming St. Louis before the nation. Nowhere else and the movement is now nation-wide-has anybody suggested a departure from the first purpose of the movement. That purpose was and is to prevent a panic break in cotton prices by taking "distress" cotton-bales that aggregate of congressional grafts made up grown by poor small farmers—off the market as by vote-getting bargains. We insisted that waste, which does no one any good, but burdens the taxand relying on financially stronger growers to hold their crop long enough to compel a return tc normal prices.

Although the movement is philanthropic, the levying fresh taxes to meet its obligations and fact that it deals with a commodity brings in a as storage and insurance. To assure the original charges must be guaranteed. Purchasers should undertake them.

The American people's generosity in buying over 200,000 bales at 10 cents a pound, and the possibility that the movement may take up a million bales at that price between now and Christmas has already impelled foresighted commercial buyers to enter the market and pay as high as 8 and even 9 cents for small quantities of the best middling grade.

The 10-cents-a-pound standard must be maintained. It would be abominable to buy cotton at ruinously cheap prices and hold it for sale at a the quarries really will be ended. The attempt to profit. It would defeat the whole purpose of the movement and turn it into a sordid mockery.

VILLA'S DECISION.

Villa makes it plain he doesn't regard First Chief Carranza as eligible to the presidency of Mexico.

With Zapata and his 5000 war-toughened troopers hostile, 20 miles south of the Mexican capital, and Villa's victorious 50,000 arrayed against him on the north, the gray giant in the National Palace seems likely soon to join the ranks of the historic liberators whose fate testifies to the inability of successful revolutionists to be satisfied with moderate reforms.

Meantime, those excitable Americans who are once more raising the cry, "On to Panama," are playing with fire and gravely hazarding this coun-

KICKING THE CHARTER.

Mayor Kiel and his associates in control of the city government cannot evade the issue created by the collection of political assessments from the employes of the Water Department.

There seems to be no doubt about the fact that money was collected on pay day for the Republican committee. That is admitted by Alexander McMullen, an employe, who said he gave the money to Paul Claus, another employe.

The collection or solicitation of political contributions from city employes is directly forbidden by the charter and is punishable by fine or imprisonment or both.

So far from condem proval to the "donation" of money to campaign funds by city employes. This expression of contempt for the fundamental law of the city, which undoubtedly embodies the sentiment of a majority of the people, raises the question of the fitness of Mr. Wall for his office, regardless of his qualifications and services as an engineer. He seems bound in the service of the party bosses instead of the service of the people.

Mayor Kiel, who helped to pass the charter cannot overlook this gross violation of the charter and insolent defiance of the people's will. The merit system and the freedom of the public service from boss control are vital provisions of the instrument. If they can be trampled under foot the whole charter will be brought into con-

SOCRATES ON EUROPE AFTER THE WAR.

Glaucon: Ah, Socrates! We were looking for you. Socrates: That is sweet of you, Glaucon. I have just been amusing myself thinking of what will happen after the war in Europe is over Glaucon: What is that? Socrates: Well, you know we sometimes hear it said that the war

Socrates: Well, judge for yourself: You have probably seen the Cathedral at Rheims, but have never seen it with holes shot through it.

Socrates: Then you will have to see it that way, Glaucon. We shall all have to see where this hit and that fell, and whatever the war cost will be recovered in time showing us exactly how everything happened.

Socrates: There is no doubt about it. Take the field of the big pattle raging now, for instance. Will we want to see that, do you think?

Socrates: It is something we can all understand, of course Glaucon: Yes. Socrates: It is not going to be like art and architecture, which have

Kipling once remarked that "you can't get and it would seem that the weed is about as ssential in conducting a war Correspondents have sent us a graphalong the military lines in France calmly smoking a cigarette as if merely inspecting his troops on peaceful parade. The regular allowance from the commissary department for each British soldier includes a weekly supply of tobacco. During the Boer war one of the Christmas presents from royalty to the troops was a pipe for each man in the ranks. French soldiers seem more fond of eigarettes. in which they indulge at every opportunity in came and on the march with the approval of their officers. In the face of such facts an anti tobacco propaganda founded on the

STEFANSSON LOST BELIEF OF SECOND

Skipper of Polar Bear, Returning With Scientists, Says He Saw No Trace of Explorer.

By Associated Press.

NOME, Alaska, Sept. 24.—The power schooner Polar Bear, Capt. Louis Lane, which left Seattle April 3, 1913, with a party of scientists and hunters, and which was frozen in the Arctic near Flaxman Island last winter, has arrived rom the Arctic Ocean by way of Si-

Most of the hunters and collectors left the schooner last winter and made their way to Alaska seaports overland, taking

Samuel J. Mixter of Boston, repreenting the Smithsonian Institution, and George S. Silsbee and John Heard Jr. with the boat and arrived here with her. No Trace of Stefansson.

Capt. Lane, who has had many years' xperience with the Arctic ice, gives it as his opinion that Vilhelimar Stefanson and two companions, who left Marin Point March 22, heading north over ice in search of new land, will never e heard from. In his voyage along the laska and Siberlan coasts, Lane kept lookout for cairns which Stefansson and his companions might have built, but no trace of the missing explorer was

The Polar Bear was off Wrangell Is before the Karluk survivors had peen taken off by the schooner King and Wings. There was open water clear to the island at one place and Lane ld have landed easily, but this open water made nim feel sure that some ther boat had preceded him and taken the men away.

Ten Large Whales Taken. The Boston men will leave for Seattle passenger steamer in a few days. They say they enjoyed the winter in The Stefansson boats were rozen in only 60 miles away and the xplorers visited one another. The Polar Bear took 10 large whales

Capt. Joe Bernard, who brought in the little wooden gasoline schooner Teddy Bear to Nome from a five-year hunting and trading trip in the Arctic the day efore the arrival of the Polar Bear, stated that he feared Stefansson and his two companions would never be heard from. Bernard said that Stefansson, whom he met and had on his ship for a time, expected to reach Banksland to the eastward, but the ice was moving continuously to the west-ward, so that if Stefansson and his two companions ever set foot on shore again their first land would be Siberia.

Miller Gets a Double With Two Men on Bases-Perdue Is on Mound.

POLO GROUNDS, Sept. 24.—Manager Ruggins sent Perdue to the mound against Demarce in the third game of the final series with the Giants this afternoon. He decided to save Doak for the final game, when Mathewson probably will work for the Giants.

The weather was threatening at game time and only 3000 fans turned out. Klem and Emslie were the umpires. THE BATTING ORDER.

CARDINALS—Dolan filed to Snod grass. Huggins singled over second. Magee singled through Fletcher, Huggins stopping at second. Miller doubled to left, scoring Huggins and Magee, Miller pulling up at second. Wilson filed to Fletcher. Wingo singled to center, sending Miller to third, and took second on the throw in. Butler struck but. TWO RUNS FIRST INNING

DIAMOND GLINTS.

There's some doubt about Willie Loak's precise record of victories this season. However, a Boston statistician has doped out the fact that Doak's record up to today is 19-5, against Bill James' mark of 25-7. That gives Lumbago Bill a better percentage of victories, making him the leading pitcher of the National League. Tesreau was in the running until yesterday, but he's out now with a mark of 23-9.

Grover Cleveland Alexander, unquestionably one of the greatest pitchers on earth, scored his twenty-sixth victory of the season yesterday, beating the Cubs. When Alex won his twenty-fifth game against the Cardinals last Saturday, he earned a bonus of \$1000, promised him at the start of the season.

Here's an interesting and true fact about the Braves. They have been accused of being drones on the bases, but in their 137 games this season they have stolen 113 bases against 112 for all their opponents. Other teams may have run wild, but not teams may have run wild, but not against Boston. Boston has scored 121 runs against 473 for the common onemy.

After Giant Series Locals Play Three Games in Brooklyn, One in Pittsburg and Six Here With Cubs -Perdue vs. Demaree Today.

NEW YORK, Sept. 24.

Tighting will be resumed along the entire National League battle front this afternoon, with the vital attack centered at the second sec where Commander Huggins' "Death Head Hussars" will again attempt to drive back McGraw's crack(ed) regiment. McGraw has taken the defensive, vainly trying to hold his present position.

If Braves Break Even

X ES, the Glants have a chance,
and so have the Reds. With
15 more games to play, McGraw's men must win them all to
beat out Boston if the Braves only
break even in their remaining 16
battles. New York has two more
games with the Cards, three with
the Phils and five each with Boston
and Pittsburg.

The Braves must play three with
the Reds, four each with the Cubs
and Superbas and five with the
Glants.

New York kicked away its last chance yesterday by losing two games, to the Cardinals. Had the Glants won both battles they would today be only four games behind, with still a fighting chance. As it is, those holding tickets on the Braves might just as well step up and "cash."

By beating the Giants twice yesterday, 2-1 and 9-0, the Cardinals crawled up within two games of second place, passing the Cubs, who fell before the Phillies, 9-4. The schedule now is favorlies, 9-4. The schedule now is favorable to the Cards, who seek second place. They play two more games here, then jump to Brooklyn for a series of three. They entrain for the West next Tuesday evening, stopping in Pittsburg for a single game Wednesday. They go home Friday morning for a six-game series with the Cubs and leave the Giants here to battle the Braves in five games.

Perdue to Oppose Demaree. For the second game this afternoon

Manager Huggins probably will use Hub Perdue on the pitching dais. Al Dem-Perdue on the pitching dais. Al Demare is slated to work for the local disappointments. Willie Doak will be ready for relief duty, but if he isn't called upon today he will oppose the enemy tomorrow in the final game.

The New Yorkers seem to have quit all over. Even the air around the park seemed to have yellow spots in it yesterday afternoon. The pathetic feature was the defeat of Rube Marquard, the twelfth in a row. It was apparent at the outset that Marquard was going to get it good, and he found scant sympathy from the crowd that filled the stands in surprising numbers, considering that the Giants are practically out of the pennant race, as far as first honors are concerned.

PIKER REGULARS ROMP OVER SUBS IN PRACTICE TIL

Coach Edmunds Varsity Football Eleven Begins to Show Form.

Real football weather continued yes terday and it was readily taken advan tage of by the local coaches. Every collegiate and scholastic grid squad in the city worked from early afternoon until dusk, while Washington also indulged in a morning workout.

Coach Edmunds proved to be the real task-master yesterday. As school starts today, the Pikers will have less time to practice. Edmunds, together with his able assistants, Thomas and Krause, led the Pikeway kickers through a two-hour morning session and came back with a three-hour afternoon practice.

As usual, the an workout was merely practice in the early rudiments. However, the afternoon session was enough to make the stoutest of gridders say "enough." First an hour of signal practice, then a half hour's scrimmage between the first and second teams, followed by another long drill at the formations. the city worked from early afternoor

The scrimmage, which was a short game between the varsity and scruba, was won by the first men, 24—0. Pottoff, Milford, De Vorkin and and Gray starred for Edmund's team, while Joses and diminutive Russell Jolley were the lights for Thomas' charges.

But one man is still missing from the squad, Graham, a guard, who will line up Friday. Webb kammerer was yesterday's arrival. Edmunds' bunch now numbers 45. But one man is on the in-Varsity Runs Over Subs.

The Outlook. MY friends, on this September morn The New York Giants are forlorn. They're hanging, helpless, on the ropes, Bereft of all their pennant hopes. The Cardinals annexed a pair From Marquard and the "Ozark Bear." The Giants won't be asked to write About the great world's series fight; And we'll be spared the awful pain Of reading Marquard's "stuff" again. For he who fails to be a champ. Need have no fear of writer's cramp. The journalistic plums will go To Evers, Maranville & Co.

In every one of the first five innings the situation developed that a hit would mean a run. In but one of those innings, the fifth, was the timely hit allowed and the run scored Considering all of this, it must have been a heartbreaker to the Ozark bear to lose a two-hit game by a 2—1 score, even if the decisive and winning run was wholly manufactured by himself for the opposition.

This was Butler's score in the eighth. Try the Lick Observatory, John.

Too bad the Braves haven't any class. However, in lieu of class, a punch and a certain amount of stick-to-itivness has served them fairly well.

Here's the Explanation.

Rickey's reason for such a star was this: Fifth inning—Boone his

ond.

Then came a duel between Tesreau and Butler. Tesreau wanted to nin him off second and it was a sequence of throws and bluff throws to catch the elusive and dancing runner, without result. Then Tesreau turned suddenly to slam the ball over while Butler was diving for the bag. He made a wild pitch and the ball climbed on the screen over the press box, and before Larry McLean could get it back Butler had slid over the plate with the winning run. Gen. Rickey used 11 regulars and 10 reservists in an endeavor to turn the Yankee's right wing yesterday, but was repulsed with great loss.

Preparations are now being made for the game with Southern Illinois Normal. Saturday afternoon, at Francis Field. Coach Edmunds gave out the following lineup as the probable one that will start the game: There's but one game's difference be-tween Indianapolis and Chicago, first and second, respectively, in the Federal League. Some race! Perritt and Perdue are advancing resin ball as an alibi. If your right offend you, pluck it out.

Frank Chance should worry! After resigning as manager of the Yanks, a job that netted \$21,000 per season, he jumped into a six-passenger car and started for a trip to California, accompanied by Mrs. Chance. The inside tip now is that Chance "beat Farrell to it." He was to be fired this winter. as substitute linemen.

Scrimmage was held at Christian Brothers College yesterday. It will be held again today and every day until the Thursday before the Illinois game, Oct. 3, according to Coach Ward of C. B. C. There are harder tasks than working under the present purple and gold coach, such as cleaning the Augean stables, substituting for Atlas, or locating an infallible umpire.

Yesterday 16 men were put on the scrub line against the varsity, EACH REGULAR LINEMAN PLAYING AGAINST TWO MEN! Besides this there were a number of scrubs playing safety positions. However, the regulars made some gains, to the surprise of even the coach. Among those who are showing up well are Shank, who played on the Illinois freshmen last year; Patterson, a last year scrub, and Lynn.

line Wild Throws in One Inning Constitute a Big League Record.

By W. J. O'Connor.

After Lavan threw wild for the second time in one inning, the ninth wiid heave of this round, Branch Rickey heave of this round, Branch Rickey threw a conniption fit.

Branch, impulsive and imperial, did something yesterday never before seen on any stage, by benching his whole team. His only mistake was that he didn't call in the police. There were didn't call in the police. There were enough witnesses and enough evidence to convict the Browns, individually and

enough witnesses and enough ovidence to convict the Browns, individually and collectively, of slaughtered the good game Father Chadwick wrote.

They strangled, mangled and fairly butchered baseball, and once the manager gave them the "gate" they scampered through the dugout like rats running from fire. At that they had been badly scorched by the hot brands of sarcasm hurled from the stand.

But the storm centered around Rickey He did something never before seen on a major-league diamond, although many is the time that the fans would have welcomed the move. Only one other instance is recorded in local baseball history that at all para. Rickey's move of yesterday.

Kulage Did It in 1909.

That was in 1909, when Henry Kulage, the Lee avenue boniface, fired his whole club, the White Seals, because they lost three games in a row. Kulage set a precedent, but little did he believe that Rickey would steal his stuff on the "big ime."

It was another case of Rickey's origanality and radicalism. Few managers

Rickey would steal his stuff on the "big time."

It was another case of Rickey's originality and radicalism. Few managers would have had the nerve to sweep an entire team of regulars off the field with one motion and supplant them with a squad of kids, most of whom are unsquad of kids, most of whom are unsquad of kids, most of whom are unsquad to the four winds and took sweet revenge at the expense of those ginks who had "trun" him down. By losing yesterday the Browns dropped to seventh place.

Have's the Explanation.

Rickey's reason for such a startling mov was this: Fifth inning-Boone went to sec was this: Fifth inning—Boone went to sec-ond when Shotton dropped his high fly. McHale fanned. Boone went to third when Weilman made a wild throw to sec-ond. Boone scored when Williams muffed Truesdale's fly. Truesdale made second on Williams' wild return to the infield Hartzell flied to Walker. Cook single to right, but Agnew dropped William good throw and Truesdale scored. Coo made second on the play at the plat Cree singled to center, scoring Cook, b Howard cut down Shotton's throw hon and heaved wild to second base. Crimaking that bag safely. He only has tated, though, because Lavan retrieve Howard's wild throw and threw it "wilder to third, Cree making third. Mullen the tapped to Lavan, who threw the ball in Col. Later on they dwindled away and fell into the last place. From last they jumped back to first position, where they will finish, according to reports. That's running the baseball gamut.

NUMBER the players! Several foot-Number the players! Several football teams whose leaders realized that the spectator who kicks in with the sinews of athletics, in the shape of paid admissions at the gate, is entitled to know what's going on out there on the gridiron, adopted the "number" plan last year. The numbers proved of value not only to the spectators but to the officials.

The system is bound to become general, in time, despite the opposition of inose reactionaries who labor under the delusion that college football is still of exclusively university concern.

The fact that Yale, Harvard and Princeton are constructing

arenas for seating crowds num-bering as high as 60,000 shows that the universities recognize the "gate" importance of the outsider and are prepared to entertain at their games about 12 times as many visitors as there are students attending their in-

stitutions.

These universities are in the position of being willing to accept the gate money without the obligation of catering to the convenience of the majority ing to the convenience of the majority of those who pay.

Receipts from football games keep alive the secondary athletics at all collegiate institutions. To this extent big schools are deeply indebted to the casual spectators. To treat these shabbily is like asking the dootor who calls to save your life to come in by the servants' entrance.

By Leased Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, Sept. 24.—The Evening Post, in its copyrighted financial review today, says:

"Therest once more converged to dary on the operations to perfect the arrangements for the \$100,000,000 probable reserves to rectify the foreign exchange position. The project appears to be moving smoothly and successfully. The more the determination is shown to protect our foreign credit, even by gold exports, the smaller becomes the probability of a demand for payment in full in gold of the Carriage position. The project appears to be moving smoothly and successfully. The more the determination is shown to protect our foreign credit, even by gold exports, the smaller becomes the probability of a demand for payment in full in gold of the day was the tentative move of the Stock Exchange to introduce facilities for trading in bonds, subject to close observance and jurisdiction by the committee. It is through such experiments as this that the way out of the present dilemma will be found. "So long as the Stock Exchange assumes wise and intelligent leadership in such efforts to solve the problem. It will keep the matter in its own hands. In default of such policy, water would be bound to find its level in the investment world in other ways. Of this fact, every experienced Wall street man is perfectly aware.

Bank Report Is Good.

"Today, as had been foreshadowed by last Thursday's weekly statement, the Bank of England reported by far the largest gold holding in its history. The week's addition of \$5.4,700,000 to that fund brings the total \$12,000,000 above the previous high-water mark on the records of the bank-reached on June 24, 1896. Loans of the bank to the market decreased \$15,000,000. This makes a total decrease of \$55,000,000 since that account reached its maximum on Sept. 5, after \$277,000,000 expansion between August 7 and that date.

"The proportion of reserve to liabilities, as a result of this gain in gold, struggles to 23½ per cent, comparing with 21½ last week, and with 14% on Aug. 7. Normally the ratio at this time of year should be nearer 50 per cent than 21, so that the bank's position is still far from satisfactory.

"But the increase in gold will undoubtedly continue, for all of the \$15,000,000 monthly production of the Transvaal now goes directly and surely into the Bank of England, while London's position as a creditor market is operating automatically to draw gold from elsewhere, despite the confusion in international exchange.

"With this process continuing and the private banks gradually paying 18. 248... Heavy draft, extra

"It naturally remains to see how the banks' position will be affected when the permanent war financiering will begin. The exchequer's weekly statements still show nearly \$4,000,000 per day paid out for army and navy, against \$1,400,000 a year ago. Also, it is not wholly clear how the general expiration of the English moratorium—scheduled today's cables say for Nov. 4—will affect the bank's operations.

say for Nov. 4—will affect the bank's operations.

'But the salent fact remains that international conditions, and the fit nancial relations of all money markets, are always greatly affected, according as the Bank of England's position is strong or weak.

"It is, therefore, reassuring that the present approach towards a normal status should coincide with the highly important remedial measures.

yesterday's basis of 4.96%, advanced quickly to 4.97. A large volume of business was done, and it was evident that various corporation remittances which had been deferred in the belief that lower rates would soon prevail, were being negotiated at the present level.

"Th foreign exchange market was active most of the day, but a good many transactions were held in abeyance pending definite announcement of the actual formation of the \$100,000,000 gold pool.

**There is not much prospect that any large portion of the fund will be called for immediate remittance to ottawa. The fact that the amount has been subscribed and that the banks are committed to the project will have an important influence upon exchange rates. Unless some unusual complication should be encountered, therefore, the chances are that nothing more than perhaps the first installment of \$25,000,000 will have to be remitted in gold. Even that may not be required.

"The New York City notes again sold when issued at a premium of 1½ percent for the three-year notes, with a premium of from ¼ to % per cent for the one and two year notes. The bankers indicated that large subscribers would get only 30 per cent of their subscriptions, and that preference would be shown to those applicants who asked for lots of \$10,000 or less. It was also pointed out that whatever notes had been applied for, by the foreign holders of the maturing obligations, would be awarded in full, since the desire of the syndicate was to provide for the paying off of maturing loans without the remittance of more gold than actually had to be sent.

There were indications of increasing case in the noney market and, although rates were not changed materially, it was less difficult to obtain loans. More money was put out on the 6 per cent basis, as compared with 7 and 8 per cent previously paid, and while some of the large banks declined to make large loans except to their own customers, the market as a whole showed less strain than was exhibited last week. "More commercial paper was sold at 7 per cent and, although the Wall street banks were not large buyers of paper, they were liberal in their advances to their own customers, who had mercantile needs to provide for. "The savings banks are likely to make interesting showing respecting the character of their business during the period when the 60-day notice of withdrawal clause has been in effect. It was reported that some of the banks, which had agreed at the beginning of the disturbance to permit cash withdrawals without notice of only 50 to each depositor, had found that new deposits had so far exceeded withdrawals as to make it possible for them to pay out \$200 cash in cases where it was asked for.
